Patrol received another dispatch to respond to 328 Pleasant Avenue, informing they were sending an ambulance for a male with a head injury - unknown further.

Myself and 221 arrived at the same time as HFD, and witnessed Stephen Berry lying on his back on the sidewalk directly in front of 328 Pleasant Avenue. There was blood coming from Berry's head and observed on the sidewalk.

HFD began tending to Berry's head injury and Linda Kaiden was yelling, swearing, and getting in the way of medical. Kaiden was advised by officers to stay away from medical, to calm down, and allow medical to do their job. Kaiden calmed a little, but continued to yell, and make comments to officers, medical, and people at the Vargas house. ***THE VIDEO FILED WITH MY COMPLAINT GIVES THIS THE LIE.***

Upon interviewing Vargas, she told patrol that Stephen Berry got in her face which made her scared for her well-being and then used two hands to push her. Vargas said her son, Jordan Borman, stuck-up for her and pushed Berry back, causing him to fall backward and hit his head on the sidewalk.

Movac and 253 arrived on scene.

I interviewed Bormann and he admitted to pushing Berry - stating how much bigger Berry is than his mother, and the fact he was a male and his mom a female. Bormann said he was protecting his mother and responded to a push with a push, not intending Berry to fall backward and hit his head.

253 located two witnesses across the street at 331 Pleasant Avenue. The two witnesses identified themselves as being Adam and Theresa Snyder, both whom corroborated Vargas' story of
Berry pushing Vargas and Bormann pushing Berry in retaliation.

Movac transported Berry to Little Falls Hospital.

Based on information collected on scene, Berry was also most likely the aggressor.

Due to patrol's knowledge of the several cameras Berry has (including his body worn camera witnessed clipped to his suspenders during the incident), there were no arrests made on-scene. Case closed unless Berry brings forth evidence and/or wants to pursuit charges. JCC/240
